

Parish Pay

Many thanks to those parishioners who have already signed up for ParishPay. We hope in the near future to increase the number of parish families or individuals donating to our parish through the ParishPay program. We are now able to accept donations through credit cards, as well as through checking or savings accounts using Parishpay. It is a safe way to donate. Donations are deposited directly into the parish checking account. Many families are unable to attend Mass every weekend. Using ParishPay helps us be more consistent in our giving. It also helps me and the Parish Finance Commission more accurately plan and budget parish income and expenditures. I know that I personally find it easier to be consistent in my parish donations by using ParishPay. Information on the ParishPay program is available for your review on the table in the narthex or you may contact me, Fr. Norm, personally. Our parish website also has a link to ParishPay. Many thanks for any consideration you might give to this parish program. Click on the Parish Pay Icon below to use Parish Pay
